X-RAY SHOWS FEET RIGHT THRU SHOES

Rappaport's are inviting the public to attend a free X-ray demonstration in foot fitting to be given in their store, 1513 Cabrillo avenue, on Friday, April 18.

The X-ray machine enable anyone to see the bones and flesh of his feet and how they rest in the shoes without removing the shoes. The demonstration is given by representatives of the True Step Health Shoes for women, and is said to be the last word in scientific shoe fitting.

"True Step Health Shoes come in all sizes and widths from AAAA to EEEE and conform to nature's pattern over three-way combination lasts, long moulded counter, and spring steel shank which supports the arch, all humanizing with the curves of the foot. Many styles are offered in the line and the fact that these shoes are fashionable as well as comfortable has made them popular," says Mr. Rappaport.

"We hope that every woman in this community will take advantage of this free X-ray demonstration Friday, as it is most interesting and helpful," continued Mr. Rappaport.

CHURCH NOTES

CHRISTIAN SCIENCE

Paul's words to the Corinthians, "If any man be in Christ, he is a new creature; old things are passed away; behold, all things are become new," constitute the Golden Text in the Lesson-Sermon on "Doctrine of Atonement" Sunday in all Christian Science Churches, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

One of the Scripture selections presented the following prayers for Christ Jesus: "Holy Father, keep through thine own name those whom thou hast given me, that they may be one, as we are one. Neither pray I for these alone, but for them also which shall believe on me through thy word; that they may all be one; as thou, Father, art in me, and I in thee, that they also may be one in us; that the world may believe that thou hast sent me. And the glory which thou gavest me I have given them; that they may be one, even as we are one: I in them, and thou in me, that they may be made perfect in one."

A passage from the Christian Science with key to the Scripture, by Mary Baker Eddy, is as follows: "Jesus of Nazareth taught and demonstrated man's oneness with the Father, and for this we owe him endless homage."

OBITUARY

EDWARD H. LEAHY

Edward H. Leahy, foreman of the wiring department of the Torrance shops of the Pacific Electric railway, died last Saturday at 3:30 p. m. at St. Vincent's hospital, Los Angeles. His passing brought sorrow to every employe in the shops and offices as he was one of the oldest employes, having worked continuously for the Pacific Electric since August 2, 1904, and was well known and liked by all. The trouble which caused Mr. Leahy's death first developed about two years ago and kept him from work for several months. The trouble was recurrent and frequently forced him to remain at home. On Sunday, April 6th, he became seriously ill and was taken to the St. Vincent's hospital where he remained until his death. Mr. Leahy was born in Los Angeles December 2, 1880, his parents having been one of the pioneer families of Los Angeles. His mother, three brothers, and one sister survive him, and all still live in Los Angeles.

A Cozy Little Nest for the Newlyweds

EASTERN bungalows differ radically from those of the West Coast, generally being more compactly designed and always with a minimum of waste space. This inevitably does away with the long hallways which in many cases are features of the western bungalow, provided for ventilation purposes and really advantageous. This charming little bungalow, of a dark burned common brick skin to the clinker, is typical in arrangement. There are only five rooms, as it was intended for a small family, but they are comfortably large, well windowed. The Common Brick Manufacturers' Association, Cleveland, Ohio, can furnish complete drawings for this design. Least bedrooms have ample closets. The little home is exceptionally well built. The brick are laid in a natural mortar, running bond, the joints being flush cut. With its fire resistant roof, danger in that direction is minimized and it will always retain its colorful beauty. This is a home which can be built economically, yet will always have a high resale value as well as a minimum upkeep expense. That is one of the dominant advantages of the brick house. With common brick lower in price just now than they have been since the World War this little home may be built from an average income.
